

Graphic Designer – InSuite 360 Ltd.

Job Introduction

Do you consider yourself a visual artist? Do you love everything Adobe? Want to take your skills to the next level and showcase your capabilities to large corporations across the Greater Toronto Area? Your work will be viewed by corporate leaders across the commercial real estate industry – brokerages, agents and landlords – and will more specifically be utilized in contributing to InSuite 360's business development and branding initiatives, social media content, and client presentations.

Are you able to:

- Handle multiple projects from concept through to execution in a fast-paced environment
- Collaborate to develop and implement digital marketing strategies and Key Performance Indicators
- Produce digital media assets integrating written and visual messages
- Serve as a brand champion by implementing and maintaining a high standard of design, format and production, while proposing and implementing strategic updates to corporate branding guidelines
- Provide creative direction on design and layout of marketing deliverables to achieve specific goals and then produce the content

If so, we want:

- Intermediate to advanced proficiency in Adobe Illustrator, InDesign, Photoshop
- Video editing experience is considered an asset
- Strong understanding of web-based technologies such as HTML, Flash, CSS and WordPress
- Intermediate to advanced knowledge of typography, layout and colour palettes
- Excellent collaboration, communication, and time management skills for prioritization
- Proactively recommend tools and software to elevate performance and deliverables of the team
- Other duties as required
- No previous related work experience required – we conduct a review of your work via a download link or online portfolio for consideration

Compensation and Term

This is a 4-month unpaid internship beginning May 1, 2017 (or earlier if available), with a financial bonus upon completion

Company Overview
